Moon Swings – The Lunar Standstill Cycle

The Moon has a little-known but wonderfully visible cycle which will unfold over the next several years. It's the "Standstill Cycle of the Moon," a phenomenon which dramatically affects where Luna rises and sets and keys us in to the Cardinal Signs and the solstice points.

DRS. RALPH & LAHNI DE AMICIS

The Sacred Geometry of Prosperity for Astrologers

This workshop teaches how to use the hidden designs in our surroundings to improve prosperity. Learn how an intimate application of Sacred Geometry can help you improve your life. We will explore innovative ways to use Local Space charts, the Essential Dignities and the Pars Fortuna to optimize personal alignments. Bring your Local Space chart (Natal Location) and your personal Essential Dignities report. If you need the DeAmicis to calculate yours, after you register for the event, email your birth date and birth location to info@ncgrsanfrancisco.org. Also, bring a simplified floor plan of your personal workspace with furniture placement, light sources and compass direction. Plan to leave the workshop with solutions.

Life Time Astrology and How to Track Your Life History

Each planet and angle in your chart signals a time in history when that quality in you originated in the historical process. Like Jung's Collective Unconscious, we carry the historical process within our very genes, awaiting its activation through study, travel, residence, fantasy and our life activities. Learn how to track your life history through time.
